THAT WILL FLY LIKE BIRD Likes the Devil Better Than He

Scientist Declares the Aeroplane Merely Glides, and He Designs Improvement.

Foreign Correspondence of The Star. LONDON, August 26, 1911. The world is mistaken, it seems, in supposing that the art of flying has been discovered, and that the great aeroplanists, Bleriot, Beaumont and the rest of them, are the masters of the craft. You may travel a thousand miles through the air machine is an aeroplane you are gliding, but not flying. This, at any rate, is the opinion of Herr Emil Keller, who has just written a brouchure, published at tact. The elaborate Parnell monument in Zurich: "Artificial Bird-Flight and

Merely a Motor-Driven Kite.

The aeroplane, according to Herr Keller, is nothing but a motor-driven kite, and, like the balloon, is at the mercy of wind The memorial of the Irish leader con- and weather. The merit of the aeroplanists is to have proved that a structure heavier than air can be used for aerial navigation, but only true flight is that of the bird, which reveals both a stability wind, two things which no kite can ac-

Accordingly. Herr Keller is determined to solve the real problem and construct a machine which will propel itself through the air with wings. He is convinced that flying apparatus of the birds promises fore its trial trip, though the experi-ments had proceeded for enough to satisfy him of the enormous power of the wings. machine, for which he has obtained a 30-horsepower motor weighing eighty-

The Safest Investments

Are those that do not fluctuate during dis-turbed conditions of the money or stock market. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "gilt edge" investments. They do not depend upon the financial responsibility of indi-viduals or corporations for their stability and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 npward. Send for booklet. "Concerning Loans and Invest-
